Getting in

The driveway is resin-bound and level, with room for two cars including an adapted vehicle. There's no step up into the house from where you park.

Parking and getting around

Single storey, no internal steps

DRIVEWAY	Private, resin-bound: two off-road spaces, adapted vehicles welcome
STREET PARKING	Outside the house if you need extra room. No residents permit on this road; check signs on arrival in case street rules change
CAR TO FRONT DOOR	Step-free path
FLOORS	Level flooring throughout, no carpet lips
PATIO	Level hard-standing suitable for wheelchairs, with the enclosed garden and BBQ area beyond

Doorways and thresholds

Clear openings, as published on our doorway graphic

965 mm
Front door clear opening

FRONT DOOR	965 mm clear, level threshold, no step
PORCH OUTER DOORS	1720 mm opening, with a full-width ribbed entrance mat

REAR FRENCH DOORS	1720 mm opening, onto the patio
PATIO THRESHOLD RAMP	20 mm high × 80 mm wide, non-slip
DOOR FURNITURE	White doors with black lever handles, for contrast
PORTABLE RAMPS	Fold-up ramps kept for the front door, yours for the stay and for days out

Beds and hoists

The accessible bedroom has a ceiling track hoist that covers the whole room. We set it up with one or two profiling beds, depending on what you need.

Please bring your own slings

Slings are prescribed for each person and fitted to them and to the hoist, so we can't safely supply them. Both hoists here take loop-style slings on a two-point spreader bar, so please bring the sling the person already uses.

Bringing your own mobile hoist

The bed lowers to 220mm. The Oxford Midi's legs stand 100mm high with 25mm of ground clearance, and it turns in 1235mm. Check your own hoist against those figures, and tell us you're bringing it so we can set the room up.

AAL RS4: transfer and standing aid

185 kg
Safe working load

The RS4 is an AAL stand assist. It is not an Arjo Sara Stedy, and the two are not interchangeable in a handling plan. Please check your care plan names the right one.

Wet room

The wet room is level from the door to the shower, with no lip at the entrance. It was designed with Care Spaces. Inside there's a tilting shower chair, a toilet that washes and dries, and a basin you can raise or lower.

Kitchen

The worktop is low enough to use from a seat, and the living room has a rise-and-recline chair. The rear French doors give a 1720mm opening onto the patio.

NEFF Slide & Hide: oven

Open-plan, wheelchair access to worktops

OVEN	NEFF Slide & Hide: the door tucks away underneath, so you never reach across a hot open door
HOB	Gas, not induction: no electromagnetic field from the cooktop, which many guests with pacemakers prefer
STORAGE	Microwave and accessible storage at lower levels

What we can’t promise

We can’t promise every piece of specialist kit at short notice. Some of it has to be hired in, and some depends on what’s free that week. What we can promise is a quick, straight answer.

If you need a measurement that isn’t here, ask and we will go and measure it.
